CHICKERING & SONS,
PIANOFORTES.
THE subscribers take pleasure in informing the public that they have been appointed Sole Agents for these Celebrated Instruments for the State of Rhode Island, and they would invite special notice to their intention of offering for sale at their NEW WAREROOMS a larger and more complete stock of Grands, Uprights and Squares, made by this Celebrated Firm, than has previously been exhibited in this city.
The subscribers have been conscious of the extraordinary merits and sterling qualities of the CHICKERING PIANOS for many years. This has resulted from a large experience in the sale of Pianos, many of which were from the best makers in the country and a careful observation of the various points of excellence exhibited by each particular maker, together with the opportunities afforded from their close connection with the Musical World, of hearing the most unanimous opinions of the prominent artists in favor of the Chickering Piano, and finally, upon witnessing the last and crowning triumph at the recent Paris Exposition over all the most celebrated makers in the world. The peculiar points of superiority to be found in the Chickering Pianos have been so frequently and minutely detailed by the Press that we do not consider it necessary in the Card to continue further upon them. We shall keep in connection with the above, a choice assortment of PIANOS from good and reliable makers at a lower price.

ZEPHYR OVERSHOE.
PATENT APPLIED FOR.
THE utility, cleanliness, and comfort of the overshoe for Winter wear, has demonstrated the necessity of an article suitable for the damp or wet days of the other seasons of the year, when the ordinary overshoe produces discomfort from its coldness, warmth, and bad ventilation.
The Z-PHYR OVERSHOE now offered for public patronage, combines the following characteristics:
They are thoroughly water-proof, both sole and upper, which can be tested by filling the shoe with water to the very top, without leaking a particle.
The upper is made of a peculiar cloth, which, although resisting water, yet can be breathed through freely, thus permitting the escape of insensible perspiration, and rendering them cool to the feet on the hottest day.
The binding made of a patented material, being partially elastic, keeps the shoe snug to the foot, avoiding that disagreeable slipping at the heel, and pinching at the quarter, common to the ordinary gum elastic shoes.
A pair weighs but four ounces, occupies when folded a very small space, and can be carried where not in use, in the pocket or retinue. For sale at
SEABURY'S Shoe Store,
134 Thames Street.

Queen Victoria and Home—Buckingham writes to the London Times:

In Buckingham Palace Mr. Tennyson is an example that the Queen is not entirely alone, may do what she pleases. It was passed in the fact of Mr. Tennyson's presence, that the Queen, on his broad, Her Majesty's Colonies, the Queen. This is the Colonies for England. The Queen, at her request, at the breakfast table with Her Majesty, Mr. Tennyson Daily, Mr. Tennyson and Mr. Gladstone, all are put at the table of each, and Her Majesty is in the habit of the Queen's table, and not the Queen's table. The Queen's a more formal affair. The Queen attends regularly to her Council, to the employment and the Council, to the expense, the wages, and that pertains to the of Parliament. Sewing, knitting, visiting, or part of her Majesty's day, for her Majesty, the Queen, is regarded. As a matter of fact, the Queen is a good woman in her home. Her Majesty usually commences her day in the morning, one hour before breakfast. Wherever she is, despatches are sent to her by messengers, who file in front of her, bearing what are called "boxes." The paper from all the Departments are addressed to her. These boxes are about one foot in length. There are one from Downing Street, the Admiralty, the Home Department, the Head of the Army, etc. Each box is locked by the minister who sends it. A card is lodged in the inside, contains the name of the minister. Every train to Windsor, Balmoral, and Osborne carries messengers with these boxes. The Queen and the minister alone can unlock them. All these documents have to be read by them, for she signs nothing which she does not read. Every bill, every document, petition, or paper requiring her signature is subject to personal attention. Her Majesty is admitted to be one of the best business women in the kingdom. Each day her business is finished before the day closes. Usually the messenger waits and takes the box checked by Her Majesty, back to the minister from whom it came. The Queen is then ready for tea and cards, or her personal correspondence, which is very large, she pays her own postage her own bills on the box. She is always given personal attention to her children, and their religious training. From the effect of such affectionate and care, Her Majesty's popularity is among the poor, the lowly, and the sick, with whom she talks, reads and prays, and leave gardens, flowers, and little tokens of her regard.

Mr. Tennyson has had occasion recently to change his publishers. There was much competition for the succession, which finally was awarded to Mr. Strahan. The manner in which Tennyson squelched one impertinent suitor is thus told by the London correspondent of the Chicago Tribune:

"A publisher who had unfortunately of forcing the acquaintance of Tennyson, some time ago forwarded Mrs. Tennyson's acceptance of a spider-like circular worth $100. A little boy he compared with others for the poem, but was not successful. I hardly expect you to credit what followed, but the circumstance is said to be true. He wrote to Mr. Tennyson, and referring to the matter, hinted that it was given in the belief that the publishing would be accorded to the firm, and as it was otherwise he would like the article back again! Tennyson instantly replied that as the matter had been written, it should not be returned, but if the $100 were forwarded, a check for the amount should be written northwards. Whether this was done I have not heard. But the story may be added to the anecdotes of publishers."

How Chewing Gum Is Made.—A great many American boys and girls, as well as children of larger growth, have acquired the truly elegant habit of chewing gum. It may be pleasant for them to know how it is made. An exchange tells them:

"The greatest gum manufacturing establishment is at Pedrick, Maine, and the fame of the gum (and the gum itself) is "in the mouth" of many. One of the employers of that establishment, who has been thoroughly initiated into the mysteries of the manufacture of the gum, was recently discharged from the establishment, and has divulged the mode of making the gum which these young Americans indulge with such velocity and apparent satisfaction. The gum is made of certain parts of gum-arabic, gum-tragacanth, a small quantity of resin and fat. The fat used is of lard (that being too expensive) but it is contrived to extract from the bodies of hogs, cats, dogs and other animals found dead in the streets of cities."

Nice, isn't it?

A VERY METHODICAL GIRL.—There is said to be a very precise and methodical young lady in one of the interior towns who divides her time up with the utmost exactness. For instance, she allows just so much time to reading, so much to visiting, so much to reading, etc., and on no account suffers herself to deviate from her rules.—If she is a caller, she says, looking at her watch: "Now I have just ten minutes to see you in without intringing upon my time for meditation." A friend called not long ago to relate to her the sad particulars of the death of her much beloved grandmother. The methodical young woman was affected even to tears, but didn't forget her time card. She drew forth her watch at the most touching point in the story and begged her friend to cut it short, as in four minutes and twenty-two seconds she must practice with her dumb bells.

To Whom it May Concern.

"This world is a very good world to live in,
This world is a very good world to live in,
But I wish to be informed
Tis the very best world that ever was known."

The above quoted lines are of such a date, but unfortunately belate to be a little years of grace—1869.

3d—If you are sick, or in distress, and the wolf has gone hard with you, call and say so, and it will be all without payment. Taking from either of the above, do not insult the dignity of our common humanity by dodging up alleys and corners to slink from the street.

### Pauperism in Newport.

It is said that pauperism in this city is on the increase, and that an unusual number of applicants for aid have appeared during the present winter. It is difficult to tell why this should be the case, as the season has been favorable to the poor, and there seems no special reason for the facts indicated. We do not believe that there is any more, if as much, real poverty and suffering in the city as in most former years. With certain classes, pauperism is becoming a profession rather than a necessity, and people who are abundantly able to take care of themselves are resorting to begging for a livelihood. These persons seem to have the impression that the city has certain funds, the income of which must be distributed and that it is their duty to secure a share. Relying upon this, they will not work when work is to be had, and will make no effort to economize or save anything for a rainy day. They have been led to feel that their wants will be met from these public charities, and hence become dependent, when they might just as well provide for themselves.

There is, also, a class, and not a small one, who beg when they are not in actual want of any of the necessaries of life. A recent case of this kind was reported in our columns where such a man was found to have more gold in his possession than is contained in the vaults of some of our largest banks. He was sent away, but there are doubtless others among us, still plying their trade, under similar circumstances. We heard a short time since of an instance in which a certain man called regularly upon a clergyman, and received the gift of a dollar a week, who upon investigation was found to deposit it in the Savings Bank as soon as received. Now this man showed himself a shrewd financier, as well as an arch hypocrite and it is quite possible that he is victimising the authorities, as well as private parties in the same way. An examination shows that very many of those who solicit aid have money in the Savings Banks of Newport, and should not be regarded with favor.

Under these circumstances, people should not lessen their charities, but they should be more careful as to the parties on whom they are bestowed. The feigned cry of distress, and the forced look of despair is sometimes almost enough to deceive "the very elect," but the man who gives should be certain that he is not deceived. Every dollar unworthily bestowed is a positive evil to the community. It encourages indolence, dissipation, and vice of every sort. Men and women who desire to do good, should seek out cases, rather than wait for personal application. The worthy poor by the present process are not reached at all, while almost every impostor finds an abundance of green pasture.

SINGULAR SUPERSTITION OF ALEXANDER T. STEWART.—Perhaps the most singular characteristic of Mr. Stewart in his alleged superstition. He is said to ignore to a great extent the business tact, ability, and foresight which were undoubtedly the carvers of his vast fortune, and to attribute his success in life solely to luck. And this idea is the cause of numerous ludicrous occurrences in his career. While he kept his store on Broadway, between Murray and Warren streets, there sat on the sidewalk before it, on an orange box, an old woman, whose ostensible occupation was selling apples. This business was, however, merely a pretence; the main object being beggary. As years rolled on Mr. Stewart became impressed with the idea that the old dame was his guardian angel of good luck, and this impression took so firm a hold upon his mind that when he removed to Chambers street, he in person took up the old woman's box, and removed her to the front of his new establishment. In further illustration of Mr. Stewart's faith in the Irish traditional belief in "lucky" and "unlucky" persons, it may be mentioned that after the completion of the St. Nicho as Hotel in this city, an undertaking in which he was largely interested, and when the building was just about to be opened for the reception of the guests, the millionaire, standing in the drawing room, ejaculated, "It is not finished; I hope its first visitors may be lucky people."

A gentleman present who had heard of Mr. Stewart's care for the aged apple vender, remarked, "I presume, sir, you do not in reality care about lucky or unlucky persons," to which he immediately replied.—"Indeed I do. There are persons who are unlucky, I sometimes open a case of goods and sell the first from it to some person who is unlucky and lose on it to the end. I frequently see persons to whom I would not sell if I could avoid it."—*N. Y. Mercury.*

THE SECRET OF THE CABINET.—How well Grant kept the secret of the Cabinet is shown by a story concerning Mr. Borie the Secretary of the Navy. Mr. Borie went on to Washington to see the inauguration of the new President, but without the slightest thought or desire of a call to the Cabinet. He called on the new President on the afternoon of the 4th of March, and found him at work in his office. "Ah, Mr. Borie," said Grant, "have *you* come on, too, to spy out the Cabinet?" "Not at all," replied Mr. Borie; "I came only to see you sworn in as President, and have called to offer my friendly congratulations before returning home." "When do you return?" asked Grant. "To-morrow, in the noon train," said Borie. "Well, good-bye," said the President, "make my regards to your family." Mr. Borie bowed himself out, and did not suspect that he was the "man from Pennsylvania," until the next afternoon, when the train stopped at Wilmington, and he heard his name read out to an eager crowd at the depot, as that of the Secretary of the Navy.

GAS EXPLOSION IN WARREN.—Mr. Briggs the owner of a house on the corner of Miller and North West streets, in Warren, who has been in the habit, as is stated by the Fall River News, of having spiritual sittings in his residence, receiving visits from spirits, and using magic lanterns and moving figures, attempted, on the evening of the 7th inst., to fill a large gas bag from the pipe that fed the house; but when the bag was nearly filled, some of the escaping gas came in contact with a lighted lamp standing on a table near by, and a terrible explosion ensued. Mr. Briggs and family were knocked down, the stove and furniture were upset and broken, carpets were torn up, and everything was thrown into confusion. The floor it is said, was broken through, and a picture frame gallery below with its show window was demolished. It is thought to be very surprising, that the residents of the house escaped with their lives.

THE BENEFIT CONCERT.—Our readers will not forget the Concert at the Opera House this evening. There are two reasons, at least, why all who can possibly do so, should be in attendance. The first is that we shall have some good music that is worth hearing. The Glee Club never fail to sing well, and to please the people. The second is that the proceeds are to be applied to a most worthy object. When a person has an opportunity to do good, and at the same time secure for himself a pleasant evening's entertainment, he should not be slow to improve the opportunity.

The Concert commences at a quarter before eight o'clock. Reserved seats may be secured at the Opera House during the day, and tickets are for sale at all the usual places.

### The Cigar—General Grant on a Railroad.

Soon after General Grant was assigned to the command of the armies of the United States, and fortunately assigned himself to the army of the Potomac, I had occasion to visit Washington on some regimental business. My errand having been accomplished, I hastened to the place—depot it was not—from which the train started for our camps, near the Rappahannock. There was a great crowd of soldiers there, and every car, with one exception, was not only full, but overflowing.

Among the surging mass still outside, and struggling to get in, I noticed a swarthy and disagreeable looking Virginian lady, giving unmistakable evidence of her purpose to go home on that train. She tried to get on to one platform, and then another, in vain. Indeed, her look, manner and dress were not such as to win consideration for her, in any ordinary crowd.

The train was to start in less than a minute, and the prospect that she, myself and a few others were to be left behind, was becoming painfully brilliant. Just then a staff officer came out of the sedate looking and unassailed car, and, standing on the platform, said to the woman and about twenty anxious officers: "This is a special car for General Grant, but you are invited to come in and be seated." I stepped upon the platform, quickly followed by the woman. Grant was inside, smoking as was his wont. As we entered he turned toward us, and, as it seemed to me, showed a little surprise, if not annoyance, at the female apparition. In truth, it was rather a novel sight to see a woman on any of those military trains running from Washington in the direction of Richmond. Without a moment's delay, however, Grant turned to the window at his right, raised it, flung out and thus sacrificed two thirds of his Designio on the altar of politeness! Remember that this was his special car, that smoking was allowed on that and every other military road, that Grant was then practically "monarch of all he surveyed," and had a right royal liking for a good cigar, yet in this little incident the gentleman spontaneously breaks out in the conqueror.

There may be men with more measured step and studied manner and superficial impressiveness, but none was ever born with a soul more nicely attuned to the delicacies of social life than that of General Grant.

Our friend, as I may now call her, took her seat near the front or southerly door, and the General was seated in about the middle of the car, both "faced to the rear." The way-stations were exceedingly numerous, and as the train hauled up at each, the General was noticed swinging himself around, firmly but cautiously in his seat, to see if the woman had gone out. But no; there she was every time. It was hard on the General and hard on us. Our pockets were as full of cigars as his, and where is the smoker who does not appreciate a Spanish blast of consolation amid the jars and dangers of a trip by rail?

The General's politeness was inexorable; ours was forced by his example. At last the agony came to an end. The fifth station was reached, and, as Grant turned again, the woman went out. He had a match in one hand and fresh cigar in the other. The slam of the door and the crackle of his lucifer were simultaneous, one the complement of the other, and both an invitation to join him in whiffing—our own cigars.

### GENERAL ASSEMBLY.

WEDNESDAY, March 10.

**SENATE.**

The Senate met at 11 o'clock. His Honor Lieutenant Governor Stevens in the chair.

Mr. Coggeshall, of Middletown, presented the petition of John Manchester and others, in relation to the seining and trapping of fish, which was read and referred to the Committee on the Judiciary.

A message from the House was received with the following documents and its action thereon:

Resolution directing that certain copies of the report of the Commissioners in relation to restocking the waters of the State with salmon and other migratory fish, be delivered to the Commissioners for distribution. Read and passed in concurrence.

Petition of the Union Congregational Church, of Newport, for amendment of charter. Read and referred to the Committee on Education.

Petition of Thomas Shepard and others for an act to incorporate the First Congregational Church, of Bristol. Read and the accompanying act passed in concurrence.

**House of Representatives.**

Mr. Barstow, of Providence, presented a petition of the Providence and Worcester Railroad for amendment of charter.

Mr. Sheffield, of Newport, presented an account of the Commissioners appointed to lay out the Chalkstone road.

Mr. Clarke, of Providence, from the Committee on Education, reported back the petition of the First Congregational Church in Bristol, for amendment of charter.

Also reported back from the same committee, the petition of the Union Congregational Church in Newport for amendment of charter. On recommendation of the committee the prayer of the petitioners was granted and the accompanying act was read and passed.

Mr. Davis of Newport, called the attention of the House to an error which was made in an act of incorporation of the "Shiloh Baptist Church," in Newport, passed during the present session. The name of the corporation should have been the "Shiloh Baptist Church," instead of the form in which the act was drawn and passed, and on this ground the society had refused to accept the act of incorporation as their charter. Another particular in which the society objected to the charter was, that they desired the word "males" used instead of "persons" as was incorporated in the act. At their request he presented a bill for a new act, in accordance with the wishes of the society, which was on his motion, received and referred to the Committee on Education.

Mr. Cross, of Westerly, presented a remonstrance of sundry citizens of Washington county, against granting the petition of the Boston, Hartford and Erie Railroad Company.

A message was received from the Senate, announcing to the House that the Senate did not accept the invitation to join in Grand committee at the time, and for the purposes specified in the invitation.

Mr. Cross, of Westerly, then called up the report of the Judiciary Committee upon the petition in relation to woman suffrage.

A long discussion followed participated in by Messrs Collins and Sayles in favor of woman's suffrage and Harrison against the same. No vote was reached up to the hour of adjournment.

### Mr. Stewart and the Secretaryship

Monday morning A. T. Stewart prepared and executed a transfer of his entire interest in the profits of the business of A. T. Stewart & Co., during his official term, to be applied to charitable purposes, to William B. Aster, James Brown, William E. Dodge, James T. Roosevelt and Henry S. Tilton. This course met the general approval of some of the leading Senators and members of the House, but did not satisfy others who insisted that Stewart could not qualify short of an absolute sale and disposition of all property he now owns connected with his business. Under these circumstances, Mr. Stewart is prepared for either emergency and having reflected on the matter, he determined to leave the question to the result of a conference with the President. In this spirit they met, and the conclusion at which they arrived was that it would be less embarrassing to the administration of President Grant, for Mr. Stewart to place in his hands a formal declination of the Secretaryship and in this manner avoid any comment by those who considered that the law must be strictly complied with. The interview was long and marked by the utmost cordiality. The following is Mr. Stewart's letter;

WASHINGTON, D. C., March 6, 1869.

To the President;

Sir,—Appreciating the high honor conferred by your nomination and the unanimous confirmation by the Senate of myself to the office of Secretary of the Treasury, I regret that circumstances beyond our control compel me to decline. Could the difficulties presented by the provisions of the act of 1789 which in organizing the department of the Treasury, prohibited the Secretary from being directly or indirectly concerned or interested in carrying on the business of trade or commerce be overcome, by any reasonable sacrifice personal to myself, I would willingly make it. I would promptly transfer to the hands of gentlemen in whom the public has full confidence, every interest in the gains and profits that could possibly accrue to myself in the business of my house during my official term, to be applied to such public charities as their judgment should dictate, and have sought by the execution of appropriate instruments to accomplish that end. But serious differences of opinion have been expressed, as to whether that course would satisfy the requirements of the law, although I will not hesitate to make this appropriation, provided it would enable me to accept the office, and thus unite my efforts with your own, and those of other members of your Cabinet, in restoring economy, honesty and strict frugality, in the administration of the government, and lift as rapidly as practicable from the people the great burdens of taxation, debt and extravagance resting on them. Yet the business relations of my firm, in its connection with others largely interested in their continuance are such, that they cannot be severed summarily, nor can my interest in it be wholly and absolutely disposed of without producing great embarrassment and loss to those with whom I have been connected. I cannot consent to enter on the administration of laws by any act, or course that may be construed into a disregard or violation of law; and while, therefore I regret that the plan proposed is deemed inadequate to relieve me from legal and, as it seems to me, technical disabilities, I yield to the better judgment of others rather than seem to be willing to accept a position in disrespect of law. In finally renewing the declination which was tendered at the outset of these objections, I repeat to you, Mr. President, my thanks for the honor done me in offering this high position, and assure you that you will have my earnest efforts to sustain your administration in carrying out the wise and salutary measures indicated by you on entering upon your office.

Sincerely your friend,

ALEXANDER T. STEWART.

The President accepted the declination and thus the office of Secretary of the Treasury becomes vacant. It may be stated, that from the very beginning the President and Mr. Stewart were in daily intercourse, consulting as to the means by which the latter could free himself from the disability of the law. It is said that no legal gentleman who had been spoken to upon the subject expressed the opinion that there could be a violation of the terms of the act in Mr. Stewart's accepting the office after having made the transfer, but that many others thought it might be considered disadvantageous to have the spirit of the law in the slightest degree invaded. This view eventually controlled Mr. Stewart, and in order to remove all objections he declined the appointment.

WASHINGTON, March 10.

Financiers here think that the selection of Mr. Fessenden as the Chairman of the Senate Committee on appropriations will materially aid the credit of United States securities and currency abroad, inasmuch as it embodies a guarantee of increased watchfulness over public expenditures. His great Congressional financial experience and his proverbial firmness in refusing to permit extravagance or inadvertence to prevail in Congressional action on appropriations of any description whatever, cannot fail to strengthen our national credit abroad as at home, for he is almost as well known over the water to those whose operations in American Securities are heavy, as in Wall street New York.

Vice President Colfax informing to the ruling Republican Senators yesterday that he shall vacate the chair on Tuesday next, in accordance with usage, and as it will be necessary to elect a President pro tem, the Republican Senators have accordingly met in caucus this morning to nominate their candidate.

President Grant is organizing his clerical staff, and has summoned here Mr. Ely, a Chicago phonographer, to act as one of his Secretaries.

Nearly all the New England men here are confident that they will not be disappointed. The New Yorkers mention the names of Mr. Cisco and of Mr. Clews as likely to receive the Treasury appointment, and they are enthusiastic over an editorial in the National Intelligencer of this morning, which was written, it is understood, by Gen. Dan Butterfield. The article regrets the resignation of Mr. Stewart, which it attributes to a Congressional cabal, and then proceeds to denounce Gov. Boutwell as a partisan, who would seek to make Gen. Grant a mere servitor of Congress, while he would advance the interest of the bloated manufacturers of New England. This article shows that the New York free traders are not well pleased in having lost the first move in the little game which they had undertaken to play, and that they will checkmate Gov. Boutwell's nomination, if possible. A few more hours will show who will win.

Chief Justice Chase is understood to have given a written opinion that Mr. Stewart's covenant covered the point of legal objection involved, and to have expressed a willingness to administer the oath to him.

FROM MEXICO.

HAVANA, March 9.

Telegrams from the city of Mexico dated 3d instant, have been received here by the Vera Cruz steamer, and contain the following news: Execution had become frequent in the country, and created general public distress. On Monday, the first of March, President Juarez forbid them, and ordered the officers to bring their prisoners to the capitol for trial. It was rumored that a man named Wagner, late of the United States Army, had been shot, but it has since ascertained that he was sent to Mexico to be tried.—Gen. Negrete had not been found. It is hinted that his defeat was not so complete as was reported. Senor Romero writes to a friend that there is a clamor for a change in the ministry, but their motives are ignoble, and as they represent only a minority of the nation, the President heeds them not. MODERN AMAZONS IN THE OLD BAY STATE.

NEW YORK, March 10.

The *Herald* has the following; A *bona-fide* prize fight, according to the rules of the ring, except that hair pulling and biting were allowed, took place between two women in Somerville Mass., at an early hour on Monday morning. The contestants on their appearance in the ring were clad in the conventional costume of gaiters, stockings and drawers, wearing nothing else to speak of, beyond waterfalls and magenta curls.—At the very first round, one of them, named Sarah Chapman, became frightened and jumped out of the ring, but her backers drove her in again, and she eventually won the fight. At the twenty-first round her opponent, Molly Jones, both of them being severely punished, begged her seconds, in God's name to take her away, and so the fight and money, 50 dollars was was awarded to Sarah.

LOSS OF SCHOONER KNOW NOTHING.

PORTLAND, Me., March 10.

The Schooner John Williamson arrived to day from Boston, bringing the crew of the schooner Know Nothing, Capt. Campbell, from East port for New York, with a cargo of fish. The Know Nothing was abandoned on the 7th instant, in a sinking condition, when twenty-five miles northeast of Cape Cod.

Two gentlemen at Saratoga Springs, last summer, having a dispute, one went to the other's door early in the morning, and wrote scoundrel upon it. The other called upon his neighbor, and was answered by a servant that his master was not at home; but if he had anything to say, he might leave it with him. "No, no," says he, "I was only going to return your master's visit, as he left his name at my door in the morning."

A CONSENT.—A girl was forced into a disagreeable match with an old man whom she detested. When the clergyman came to that part of the service where the bride is asked if she consents to take the bridegroom for her husband, she said with great simplicity, "Oh dear, no, sir! but you are the first person who has asked my opinion about the matter"

### Business Matters.

With Dyspepsia everything is wrong. Food does not digest; sleep does not refresh; wine does not cheer; smiles do not gladden; music does not charm, nor can any other joy enter the breast of the miserable dyspeptic. You must get rid of it, or it will become seated and confirmed, and life will be a burden and existence a curse. Plantation Bitters will do away with all this. New life, strength and energy will take possession of you. The damask will again bloom upon your cheek, and the luster in your eye will again be as bright as in your healthiest, happiest and most joyous days.

**A Hilarious Month.**

March, that gives us a new President, is also the disorganizer month of many harassing disorders. Enchanted in its fogs are the seeds of coughs, colds, and of that alternation of frigidity and fire, more widely known than admired, called fever and ague. The only way to avoid these will be to invigorate the system enough to drive off the atmospheric poison that produces them, and the best way to endow it with this repellent power is to take it with HOSTETTER'S STOMACH BITTERS.

His employers were credibly informed that a radical was walking at the door corner. He would distribute his tracts, and take a cigar notice to his disciples. With just about the same amount of truth, the attacks of disease prevalent at this season may be evaded. Nay, the trouble will be less for drug stores will be every such room, and every respectable druggist in the United States keeps Hostetter's Bitters. The article is a staple of trade, as it would be as easy to find a good grocery without sugar, as the store of an apothecary without this popular tonic remedy.

In view of the experience of the nation, who regard to Hostetter's Bitters, during the space of twenty years, it seems almost time to cease to recommend it to Americans. But as our population is ever shifting, as the revival a couple of months ago proves, in the natural way and by immigration, it may be necessary that to all people generally, and from Maine to the old settlers know, it is a fact that HOSTETTER'S STOMACH BITTERS is the most wholesome and potent vegetable tonic ever manufactured; that it is a specific for debility, dyspepsia, biliousness, and intermittent fevers; that it prevents, as well as cures, these complaints and their complications; that it is not "bad to take," and is absolutely harmless.

# YOU ALL

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

# HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the crazy preparations now in the country called Bitters or Tonics. They are no fevish preparation, or anything Rhenish; but good, honest, reliable medicines. They are

*The greatest known remedies for*

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

And all Diseases arising from a Disordered Liver, Stomach, or

*IMPURITY OF THE BLOOD.*

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

*It Cures a Large Class of Cases by Stimulating the Liver or Digestive Organs, combined with its pure Blood.*

## Hoofland's German Bitters

Is entirely vegetable, and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

## Hoofland's German Tonic

*Is a combination of all the ingredients of the Bitters, with rich Sweet Old Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where some purely alcoholic stimulus is required. You will hear it said that these remedies are entirely different from any others advertised for the cure of the diseases named, there being scarcely a preparation of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. It is a pleasure to take it, while its invigorating, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.*

DEBILITY,

*There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility, arising from the effects of climate, etc. They impart a tone to the digestive organs, strengthen the appetite, cause food to digest, enable the stomach to digest it, purify the blood, give a good, healthy complexion, eradicate the yellow tings from the eyes, impart a bloom to the cheeks, and change the patient from a weak, emaciated, unnerved, weak, and nervous invalid, to a full-faced, stout, and vigorous person.*

**Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.**

*These Remedies are Co Self*

### Blood Purifiers

*Your blood, and will cure all diseases resulting from bad blood. Keep your blood pure; keep your liver in order; keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no disease will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything you may rely upon these preparations.*

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 18, 1857.

*I find "Hoofland's German Bitters" to be an invigorating tonic, and a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and total nervous relaxation, in the system.*

*Yours truly,*

*GEO. W. WOODWARD.*

FROM HON. JAMES THOMPSON,

Judge of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 23 1868.

I consider "Hoofland's German Bitters" a valuable medicine in cases of Indigestion or Dyspepsia. I can certify this from my experience of it.

Yours, with respect,

JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—Dear Sir:—*I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my proper province, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the excellence of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may prove but kindly. I doubt not, it will be to those who confer it.*

*Yours, very respectfully,*

*J. H. KENNARD,*

*Eighth, below Coates street.*

CAUTION.

*Hoofland's German Remedies are counterfeited. The genuine have the signature of C. M. Jackson on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.*

**Or, a half dozen for $5 00.**
**Price of the Tonic, $1 50 per bottle;**
**Or, a half dozen for $7 50.**

The tonic is put up in quart bottles.

*Recollect that it is Dr. Hoofland's German Remedies that are so universally used and so highly recommended; and do not let the dealer impose anything else that he may say is just as good, because he makes a larger profit on it. OFFICE HOURS { 8 to 9 1-2 A. M. / 2 to 5 P. M. } Newport, R. I.

[Dr. T. has no other Office.]

**Schenck's Pulmonic Syrup,**

Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the pulmonic complaint goes the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, ready for throwing it off by an easy expectoration, for when the phlegm or matter is ripe, a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions from the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented equal to them as a cathartic (a deadly poison, which is very dangerous to use unless with great care) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prevalent causes of Consumption.

Schenck's Seaweed Tonic is a tonic, stimulant and alterative, and the alkali in the seaweed, which this preparation is made of, neutralizes the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood with common fermentation or cooking in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, heals fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Cancer, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumptive, of course the lungs in some way are diseased, either tubercles, abscess, bronchial irritation, pleural adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets healthy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to die. He was cured by the above medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Hand Street, New York, every other Tuesday, and at No. 15 Hanover Street, Boston, every other Wednesday. His clerks advise free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $15.00 a half dozen. Mandrake Pills 25 cents a box. O. C. GOODWIN & CO., 55 Hanover St., Boston, Wholesale agents. For sale by all druggists.

NEW SABBATH SCHOOL BOOK, just published, "THE MORNING STARS," A Book of Reading Songs for Sunday Schools and the Home Circle. The authors believed that by recollection of sweet and simple melodies hitherto but little touched,—made at once very easy, very attractive, beautiful and of high order, might be placed in the hands of children; and from a careful examination of about four thousand of the GERMAN FOLK SONGS, the present collection has been called.—Great pains have been taken to put the music into proper keys, for children's voices. It is our experience that music for children is very generally written too high. A child's voice should seldom be carried above D; and, as a rule, it cannot be maintained for a number of bars on C or D without shifting. Accordingly, we take as selected the keys that only a very few melodies, in which it was impossible to avoid it, will be found to run above D, in any part of them.

## WILLIAM L. BRADLEY,

24 Broad Street, Boston.

Your Super-phosphate is entitled to the confidence of the agricultural community.
S. DANA HAYES, *State Assayer of Mass.*

FROM JUDGE PIERREPONT.

163 FIFTH AVENUE, N. Y., Nov. 26, 1859.

WM. L. BRADLEY. Dear Sir:—You ask how the Super-phosphate which I had of you last spring proved to be on upon my country place upon the Hudson River.

I say in reply that my gardener used it on the lawn, on the piece of meadow and on the Indian corn. Its effect was rapid and wonderful. It is far the cheapest manure of which I have any knowledge.

Yours truly,
EDWARDS PIERREPONT.

FROM HON. GEORGE B. LORING.

I have used every variety and have found none which operated more effectually and permanently than yours.

FROM COL. LANG, ONE OF THE DISTINGUISHED STATION GEN. KNOX.

NORTH VASSALBORO', Me., Dec. 8, 1859.

W. L. BRADLEY. Dear Sir:—When I met you in Portland, I was unable to answer in full your queries as to the satisfaction found in the use of your Superphosphate, as my crops were not harvested.

I am gratified with the result of its application upon corn, potatoes and roots, and have arranged for a liberal supply for the coming season.

I am, respectfully yours,
T. S. LANG.

FROM REV. HENRY WARD BEECHER.

A second reason's trial confirms the good opinion which I formed of it both for farm and garden use.

STATE REFORM SCHOOL OF CONNECTICUT,
WEST MERIDEN, CONN., Dec. 12, 1859.

WM. L. BRADLEY. Dear Sir:—We much prefer your Super-phosphate on the various crops we raise.

I am happy to recommend yours as a superior article to all who use fertilizers.

We shall be glad to have a supply for next year.

Yours truly,
E. W. HATCH, Supt.

WILLIMANTIC, CONN., Nov. 12, 1859.

WM. L. BRADLEY. Dear Sir:—I have used your Super-phosphate the past two years, with other fertilizers in the same field, to test the quality of each. My testimony is, that it is equal to any and superior to most others. I shall use it largely the coming season.

Yours truly,
ROBERT BIZZELL, Real Estate Agent.

Orders for the above, left at the Office of the *DAILY NEWS* and *NEWPORT JOURNAL*, will be promptly attended to.

**$500 WILL BE FORFEITED BY DR. L. DIX** if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF-ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies.
SECRET AND DELICATE DISORDERS;
Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of

BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'S

PRIVATE MEDICAL OFFICE,

**No. 21 Endicott Street, Boston, Mass.,**

is so arranged that patients never see or hear each other. Recollect the exact entrance to his Office is **No. 21**, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted), except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

**is the only regular graduate physician advertising in Boston.**

SIXTEEN YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

**Strangers and Travelers.**

To avoid and escape imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX

friendly refers to Professors and respectable Physicians—many of whom consult him in difficult cases, because of his acknowledged skill and reputation, obtained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

do not rob and add to your sufferings in being deceived by the false boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Disease, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines by the dead, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical Books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not Killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon Mercury, and gives it to all his patients in Pills, Drops, &c., to the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specifics, Antidotes, &c., both subjecting the effects in coming a few in a hundred, it is trumpeted in various ways throughout the land; but, as not nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will prepare themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived, and unnecessarily spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

Medicines sent by Mail and Express to all parts of the United States.

**TO THE LADIES.**—The celebrated DR. L. DIX particularly invites all ladies who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and efficient treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

## 1000 MILES

OF THE

# Union Pacific

### *RAILROAD*

### ARE NOW COMPLETED.

An 100 miles of the western portion of the line, beginning at Sacramento, are also done, but

### 267 MILES REMAIN

**To be Finished, to Open the Grand Through Line to the Pacific. This Opening will certainly take place early this season.**

Besides a donation from the Government of 12,800 acres of land per mile, the Company is entitled to a subsidy in U. S. Bonds on its Road as completed and accepted, at the average rate of about $32,000 per mile, according to the difficulties encountered, for which the Government takes a second lien as security. Whether subsidies are given to any other companies or not, the Government will comply with all its contracts with the Union Pacific Railroad Company. Nearly the whole amount of bonds to which the Company will be entitled have already been delivered.

### FIRST MORTGAGE BONDS AT PAR.

By its charter, the Company is permitted to issue its own FIRST MORTGAGE BONDS to the same amount as the Government Bonds, and on the same—These Bonds are a First Mortgage upon the entire road and all its equipments.

THEY HAVE THIRTY YEARS TO RUN, AT SIX PER CENT., and both

**PRINCIPAL AND INTEREST**

ARE

### PAYABLE IN GOLD.

Such securities are generally valuable in proportion to the length of time they have to run. The longest six per cent. gold interest bonds of the U. S. (the '81's) will be due in 12 years, and they are worth 112. If they had 30 years to run, they would stand at not less than 125. A perfectly safe First Mortgage Bond like the Union Pacific should approach that rate. The demand for European investment is already considerable, and on the completion of the work will doubtless carry the price to a large premium.

SECURITY OF THE BONDS.

It needs no argument to show that a First Mortgage of $20,000 per mile upon what for a long time must be the only railroad connecting the Atlantic and Pacific States is intrinsically secure. The entire amount of the mortgage will be about $50,000,000, and the interest $1,800,000 per annum in gold. The present currency cost of this interest is less than $1,400,000 per annum, while the gross earnings for the year 1868, FROM WAY BUSINESS only, on an AVERAGE OF LESS THAN 100 MILES OF ROAD IN OPERATION, WERE MORE THAN

**FIVE MILLION DOLLARS,**

The details of which are as follows:

| | |
|---|---|
| From Passengers | $1,624,126.97 |
| " Freight | 2,097,263.10 |
| " Express | 43,192.05 |
| " Mails | 179,224.19 |
| " Miscellaneous | 91,626.27 |
| " Government troops | 104,077.17 |
| " " Relief | 149,143.29 |
| " Contractors' men | 521,173.00 |
| " " material | 1,041,453.32 |
| Total | $5,905,831.31 |

This large amount is only an indication of the business traffic that must go over the through line in a few months, when the great title of Lands and travel and trade will begin. It is estimated that this business must take the earnings of the road from FIFTEEN TO TWENTY MILLIONS A YEAR.

As the supply of these Bonds will soon cease, parties who desire to invest in them will do it for their interest to do so at once. The price for the present is par and accrued interest from Jan. 1, in currency.

Subscriptions will be received in Newport by HENRY BULL & CO; NATIONAL EXCHANGE BANK, Newport; NEWPORT NATIONAL BANK; and in New York

**At the Company's Office, No. 20 Nassau Street,**

AND BY

**John J. Cisco & Son, Bankers, No. 50 Wall Street,**

And by the Company's advertised agents throughout the United States.

*Bonds sent free, but parties subscribing through local agents, will look to them for their safe delivery.*

A NEW PAMPHLET AND MAP WAS ISSUED Oct. 1st, containing a report of the progress of the work to that date, and a more complete statement in relation to the value of the bonds than can be given in an advertisement, which will be sent free on application at the Company's Offices or to any of the advertised agents.

AMERICAN AND FOREIGN PATENTS.

### R. H. EDDY,

### SOLICITOR OF PATENTS,

*Late Agent of the United States Patent Office, Washington, under the Act of 1837.*

**No. 78 State St., opp. Kilby St., Boston.**

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

*No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.*

During eight months the subscriber, in the course of his large practice, made on *twice rejected applications*, SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor* by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable* and *successful* practitioners with whom I have had official intercourse.

CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and honestly* and more capable of pushing their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

"Mr. R. H. Eddy has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and skill on his part, leads me to recommend an inventor to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

### WATERS' NEW SCALE PIANOS,

MELODEONS AND CABINET ORGANS,

**The best Manufactured and Warranted for 6 years.**

Fifty New and Second hand Pianos, Melodeons and Organs of six octaves, instruments at the prices for cash, or one-third cash and the balance in Monthly Instalments. Second-hand Instruments at great bargains. Illustrated Catalogue mailed.—Warerooms, 481 Broadway, New York.

HORACE WATERS.

TESTIMONIALS.

"The Waters' Pianos are known to among the very best.—*N. Y. Evangelist.*

"We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

"The Waters' Pianos are built of the best and most thoroughly seasoned materials.—*Methodist Quarterly.*

"Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Methodist Quarterly.*

MUSICAL DONORS.—Since Mr. Waters gave up publishing sacred music, he has devoted his whole energies and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are earnest, if not zealous, with the Pianos advertisements of rival pianos, would do well to look the modest manufacturer like Mr. Waters, but who happens to manufacture a grand piano, a good reputation long before Expositions and "Medals" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and *generous instrument*. Surveyor cannot ask more, and we could not give.—*Home Journal.*

**The Medicine for**

### *WHOOPING COUGH!*

DODD'S NERVINE AND INVIGORATOR gives speedy relief and almost instant relief in the spasms of Whooping Cough. This is a complaint that all children are expected to have, and when it comes, always terrify, and we feel it right to do all we can to lessen its severity and keep the child from being choked to death by the violent spasms. And when it is so, we feel that any name of the diseases of older and adult years have such origin in the tear and strain of Whooping Cough, this medicine would be utterly unexpected use for the first that children's diseases, like many of the complaints of women, are considered too much a matter of course that people have been slightly concerned about them. Let these cases be thought, and did, relief generally to the suffering wind. Whooping Cough is a Nervine disease, and Dodd's Nervine and Invigorator treats it with COMPLETE SUCCESS. Mothers, TRY IT, and save your little ones the worst agony of this distressing affliction. A sure and speedy cure guaranteed.

### Important Certificate.

**Speedy Cure for Whooping Cough.**

A. W. Prosser, Esq., Brooklyn, N. Y.

I have found the benefit of taking advertised medicines, for even fully to their curative effects when they come under my observation; but I feel compelled to do so, even to favor of DODD'S NERVINE AND INVIGORATOR, a medicine I have used in my family for some time past. My little daughter had been suffering from severe Whooping Cough for several weeks, and was so much broken of rest and sleep that she was wasting and loss of strength, constitution and general health seemed to be giving way. Various medicines or palliatives were recommended by intimate neighbors, but nothing seemed to do her any good. The cough was cured by physicians and was fast sinking to Death's Nervine. This was procured and commenced to take at once—with an effect immediate and complete. As the convulsions were lessened and the cough by either the Nervine or Invigorator, the cough ceased, and she slept sound and quietly for the first time for weeks. Her health improved rapidly, and she is now as well as ever. I do not hesitate to recommend Dodd's Nervine and Invigorator to all who need it.

A. W. PROSSER.

### COLGATE & CO'S TOILET SOAPS.

I rise to make earth sleepy head,
Wash and open my drink,
Where I sometimes quite discover the dead,
Where night, but did not think.

I want to warn the living ones
Who blindly jump along,
Ye fathers, daughters, mothers, sons,
What people round you do eat!

Look out, my neighbor, are you free,
Or do you wear the mark?
Men's all are blind and cannot see,
Yes, groping in the dark.

Catarrh, a disease in the head,
Consumption is the sum;
Kills—in die, you counting millions, dead,
Perhaps yourself may be one.

Your hacking, hawking, sneezing, etc.
Catarrh affects your head.
Mother and children in throat or lungs,
Bring down your throat instead.

Your lungs and liver soon will show,
Consumption has a birth;
Catarrh, I say, will feed it too,
Till you return to earth.

It chills affect your head and throat,
Assume your lungs;
Now don't Cough what I have wrote,
Or think the subject dry.

Wright's Assimilation cures
Consumption, Catarrh;
Heals the lungs, and health in turn
And Colgate's Soap dry.

Every Druggist sells it,
Wright's Assimilation;
Also Paris Paint, Injury, Rheumatism,
And only in cent or pound.

I want to show you, plain as day,
Why Paris Paint stops all pain,
That you may never have to say
"I had my paint again."

Paris Paint will not let never stain:
Dried on all inflammation;
Its harmless on the breast or brain,
A trial keeps all doubt.

When inflammation leaves the frame,
All pain will come at once;
Remedy the cause, its all the same:
Now doubts—relief a dunce.

The poor will cage and drink Paris Paint;
All complaints fill with cover:
Rub—Cure—Cook, the sick, the faint,
The greatest simple pleasure.

Evaporation cools the place
As inflammation flows;
Heat blood at the absorbent's base
Makes Paris Paint so fine.

The Paris Paint removes all doubt,
Remove the very cause
By purging the inflammation out:
Or 100 to rest our cases.

Wholesale Paris Paint is—all at all Drug Stores, also, Wholesale Apothecaries, for the cure of Catarrh and Colds in the Head. Sent by Express on receipt of the money, at 194 Chatham Square, N. Y. R. L. Wright, Prop. f24—4w

The ÆTNA has the largest paid up Capital of any Company in the United States, and has paid more losses than any other. It has to a standard Company of the country, it is celebrated everywhere for its liberal method of claim settlement. Its rates are lowest, consistently, there is charged, by others, though it does not pretend to compete with those extraordinarily low rates.

The Agency is now part of the office of the DAILY NEWS, No. 13 Church Street.
